## ABOUT OTL AFRICA DOWNSTREAM

Oil Trading and Logistics (Africa Downstream) is a Pan-African initiative dedicated to promotion of business, policy, and stakeholder relationships in downstream petroleum markets across the continent. It achieves its goals through strategic government and business liaison, research and advocacy with a focus on effective industry solutions.

The annual OTL Africa Downstream Week is the continent's leading business forum for unique insights on markets and emerging opportunities in addition to knowledge development, products showcase and recognition of excellence in the downstream petroleum value-chain. It features a strategic conference, dedicated industry exhibition, networking receptions and the annual OTL Industry Dinner and Awards.

Organised in collaboration with key partners in government and the industry, the event is rightly described as 'Africa's Downstream Destination'.

The Petroleum Products Marketing Company (PPMC) is a wholly owned Downstream Subsidiary Business Unit of the Nigerian National Petroleum Corporation NNPC, with the primary responsibility of profitably and efficiently marketing refined petroleum products in the domestic market and ensuring products supply sufficiency either from domestic refining or from imports. In addition to its core mandate, PPMC is the National Strategic Reserve Holder for PMS and the sole supplier of PMS nationwide. Our operations cut across NNPC's over 21 depots contiguously located across the nation, Private Depots, Satellite Depots among others. PPMC has interfaces with all categories of Marketers, and other key players in the Oil and Gas Value Chain. The Company places emphasis on availability, affordability, and transparency in the distribution of products; stakeholders' management; and cost optimization/profitability. To actualize its objectives, PPMC has automated its business processes in line with global best practices.

Our activities include bulk sales of the under listed petroleum products to coastal, credit and independent marketers.

Dangote Industries Limited (Dangote Group) is a diversified and fully integrated conglomerate with an annual group turnover in excess of \$4.1 billion. The Group's interests span a range of sectors in Nigeria and across Africa. The core business focus of the Group, which started operations in 1978, is to provide local, value-added products and services that meet the 'basic needs' of the populace. Through the construction and operation of large scale manufacturing facilities in Nigeria and across 16 other African countries, the Group is focused on building local manufacturing capacity to generate employment, prevent capital flight and provide locally produced goods for the people. Current interests include cement, sugar, salt, flour, pasta, beverages and real estate, with new multi-billion dollar projects underway in the oil and gas, petrochemical, fertiliser and agricultural sectors of the economy. Dangote Cement, the Group's flagship, is a dominant player in the cement sector with three cement plants in Nigeria- Obajana in Kogi State, Ibese in Ogun State and Gboko in Benue State. Dangote Cement also operates in Ethiopia, Zambia, Senegal, Cameroon, Tanzania, Ghana, Congo, Sierra Leone and South Africa with plans to further expand to Niger, where it plans to build a \$312 million cement plant. Dangote Cement's pan African installed capacity stands at 45.6Mta. Dangote Group has launched massive agricultural projects across the country in rice and dairy farming. The Group's push for backward integration in providing its own raw materials on a massive scale has led to the planned investment of \$4.6 billion over the next three years in sugar, rice and dairy production alone. The Group's new projects include the world's largest single train petroleum refinery, which is being built in Ibeju-Lekki in Lagos at the cost of \$12 billion. This project will address Nigeria's energy needs, eliminate importation of refined petroleum products and make the nation an exporter of finished petroleum products. Dangote Group has four listed companies on the Nigerian Stock Exchange (NSE) as part of its vision of being a world-class organisation. They include Dangote Sugar Refinery Plc (DSR), Dangote Cement Plc (DCP), Dangote Flour Mills Plc (DFM) and the NASCON Allied Industries Plc. The Group is fully involved in philanthropic activities, through the Aliko Dangote Foundation, which oversees implementation of this objective. Chairman of the Foundation, Aliko Dangote endowed it with a grant of \$1.25 billion in 2014. The Foundation intervenes in the areas of health, education and empowerment. The Foundation is also involved in providing humanitarian aid to victims of natural disasters both within and outside the country.

OVH Energy Limited is a leading indigenous marketer of choice providing trusted petroleum products and services in Nigeria. Our expertise spans across the provision of jetty services and the marketing and distribution of refined petroleum products for retail, commercial and industrial purposes. Our strong unrivaled heritage, drive to impact lives positively and the influence of her shareholders – Helios Investments, an Africa-focused Nigerian firm; Vitol Group, a leading supplier of petroleum products and the strong Oando retail brand – contributes to our growing business success.

We provide solutions for a wide range of energy needs through our subsidiaries, OVH Energy Marketing (OVHEM) Limited, licensee of the Oando retail brand and Apapa Single Point Mooring (ASPM) Limited, custodians of Lagos Midstream Jetty (LMJ). Through our Oando retail brand, OVH Energy has enriched Nigeria’s downstream sector and established an unparalleled distribution footprint, distributing over 1 billion litres of refined products annually. Conversely, ASPM Limited is focused on strengthening Nigeria’s downstream value chain through Lagos Midstream Jetty, referred to as West Africa’s First Privately Owned Midstream Jetty.

At OVH Energy, we understand that every market is different and that our customer needs are as diverse as the world we live in. Fueled by a passionate workforce, we leverage technology and the strength in our diversity to deliver innovative solutions to all stakeholders and remain committed to transforming West Africa’s energy value chain.

AKABOGU & ASSOCIATES is a law practice that provides business law services across Nigeria with specialist skills in shipping and maritime, energy and international trade. Its services cut across legal, advisory, due diligence, claims handling, documentation and litigation, with practice areas that cover a range of strategic business sectors of the economy, providing services for both large establishments and less structured clients. The firm is an acknowledged leader in Shipping and Transport with several awards to its credit, including a current ranking by Legal500 as ‘Leading Firm’ for Shipping and Transport (EMEA). Providing bespoke solutions for peculiar problems, the firm draws on its deep knowledge of the Nigerian legal and regulatory regimes. It also draws on the expertise of a wide network of resource partners to effectively provide solutions beyond direct legal needs. Website: [www.akabogulaw.com](http://www.akabogulaw.com)

Eterna was incorporated on the 13th of January 1989 as Eterna Oil & Gas Limited. The Company commenced business in 1991 and its shares were listed on the floor of the Nigerian Stock Exchange in 1998. In our bid to carve a niche as a manufacturer and marketer of reliable, efficient and highquality lubricants and oil products, we established a technical partnership with Castrol BP in 1991 – the pioneers in global lubricant technology and specialty chemicals. This relationship gave rise to a distributorship agreement and an exclusive right to import and market Castrol products in Nigeria and the ECOWAS sub-region. Today, our lubes blending plant is world class with a state-of-the-art laboratory in Africa to manufacture Castrol and Eterna products to cater for the West African markets. We engage in the manufacturing and sale of lubricating oils; importation and bulk/retail sale of petroleum products including PMS, AGO, LPFO, Base Oils and export of lubricants/fuels; Marketing LPG and NG; and other engineering & technical services for the energy sector. The underlying philosophy of our retail business is value for money and loyalty rewards. Our stations are safe and accessible, our pumps are calibrated to the highest industry standards and our station attendants are honest and customer-friendly. Our aim is to deliver value to our customers through our products and services and we believe to be Africa’s Preferred Energy Company.

11 PLC is the sole authorized distributor of Mobil fuel and lubricant brands in Nigeria. 11 PLC is committed to maintain a high standard for integrity and adherence to safety, health and environmental standards and to be leader in the promotion and sharing of best practices in the downstream sector of Nigeria's oil and gas industry.

11 plc operates a Lube Oil Blending Plant (LOBP). This modern, high technology LOBP with a capacity of 450,000 Barrels is regarded as one of the most sophisticated in Africa. The company continues to be the industry benchmark for ethics, safety, operational excellence and quality standards.

Zircon Marine is an indigenous Nigerian company but has a diverse team with more than 10 years of globally benchmarked expertise in maritime and logistics solutions for many multinational oil and gas companies in Nigeria and across West Africa. Our mission is to be the number 1 liquids transfer company in Nigeria.

Zircon Marine Limited offers international standards and expertise in Mooring and Transshipment Services, Crude Evacuation Services, Vessel Charter, Procurement of Marine Equipment, Marine Logistics and Consultation Services. We are accredited by Total and currently undergoing BP audits. For the future, we will continue to provide excellence and value to our clients by working with our professional team and our strategic partners to bring comprehensive, reliable, and cost-effective marine transportation and logistics solutions throughout West Africa safely, on time, and within budget.
