OTL Africa Downstream Energy Week is the continent's leading downstream energy event over the last eighteen years, setting agenda and promoting business and operations in downstream energy markets.

OTL Africa Downstream is constantly providing industry solutions by tailoring the annual events to the needs of the nation's midstream and downstream energy sectors.

- Dr. Billiy Gillis-Harry, National President, Petroleum Retail Outlets Owners Association of Nigeria (PETROAN)

Driven by industry and government, OTL Africa Downstream has created a rare platform to come together as an industry to review operations, practices, procedures, policies and laws.

- Mr. Tunji Oyeboji Managing Director TIPLC,

"The strategic focus and scope of OTL Africa's activities which covers promotion and development of businesses, policies and operational relationships in the downstream energy value chain is highly commendable.

-Engr. Farouk Ahmed, Authority Chief Executive, Nigeria Midstream and Downstream Petroleum Regulatory Authority (NMDPRA)

CONSOLIDATION

"OTL for me is a rallying point. It brings investors, regulators, the government. It's a melting pot of the public and private sector to discuss the Oil and Gas industry.

- Ms. Toyin Aina, Group Head; Energy - First Bank

"Credit must be given to OTL for being able to bring the big players, the government, regulators under the same roof and having the industry rub minds and chart a way forward. Without a conference like this, we would be working in silos, and maybe we have a common enemy, sometimes we wouldn't identify that we have a common enemy, and OTL is bringing that unity, I think it's excellent.

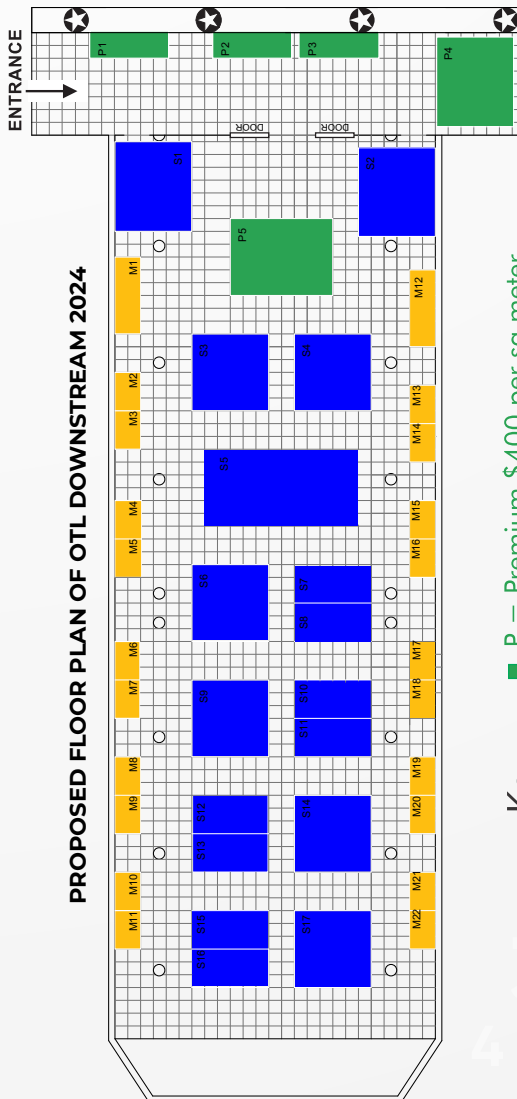

- Mr. Ayodeji Ogundiran, Managing Director, Fuelmetrics
